CAREER OBJECTIVE

Motivated engineering graduate skilled in full-stack development and database management, seeking an entry-level software engineering position. Proficient in Java , Spring Boot, Spring Data JPA, Spring REST

SKILLS

- **Languages & Frameworks:** Java, JavaScript, HTML5, CSS3, SQL, React.js, Spring Boot, REST API
- **Tools & Technologies:** Git, GitHub, Postman, Eclipse IDE, IntelliJ, Docker, SL4J, MongoDB, MySQL, Bootstrap, Tailwind CSS, Axios
- **Concepts:** Core Java, OOP Principles, MVC Architecture, Microservices
- **Soft Skills:** Communication, Problem-solving, Quick Learning, Adaptability

EDUCATION

B.Tech in Electronics and Communication Engineering

Priyadarshini College of Engineering & Technology | 2019 – 2023

CGPA: 6.23/10

Senior Secondary (XII) – Science

Sri Sai Junior College, AP | 2019

CGPA: 9.69/10

Secondary (X)

ZPHS Alluru, AP | 2017

CGPA: 8.50/10

TRAININGS & CERTIFICATIONS

Full Stack Java Development

Naresh IT, Virtual | Sep 2024 – Present

Java Internship

INTERNSHIP STUDIO, Virtual | Sep 2024 – Oct 2024

WORK EXPERIENCE

Apprentice – Software Development

Electronics Corporation of India Limited (ECIL), Hyderabad | Jan 2025 – Present

- Working on Java-based applications as an apprentice, enhancing practical understanding of enterprise software development.

PROJECTS

- **Patient Management Application:** Developed a Spring Boot microservices-based system for managing patient records, ensuring scalable architecture and secure RESTful APIs.
- **Employee Management REST API:** Built a complete REST API using Spring Boot for managing employee data, deployed on AWS EC2 with MySQL integration and Nginx as a reverse proxy
- **Fitness Application with Gemini API Integration:** Designed a fitness tracking application leveraging Spring Boot with external Gemini API, implemented CI/CD via Git, and optimized API performance
